BIO:

SEBASTIAN BURRASCA is a character created by Fabio Lucignano in 2010, born and raised as a street performer in the most beautiful squares of Italy.

Over the last years, he has also performed at several street artists festivals such as Veregra street, Vademecum of Monterotondo, Clown&Clown of Monte San Giusto, Santa Sofia Buskers Festival, SMIAF of San Marino, Faenza Buskers, Senigart, Super Clown Festival, in the "off" category at "FiraTarrega", Modena Buskers Festival and in various events such as theatrical review and streetfood festivals, without ceasing to bring laughter as a hat-maker in the Italian tourist regions.

In 2017 he was the **first ranked** in the ClownFactor competition that brought him to the **"Takimiri" prize** winner during the Clown & Clown, International Festival of Street Art and Clowns at Monte San Giusto.

In 2014, he founded the **COLLETTIVO CLOWN** with duo Meroni Zamboni, with which organizes festivals of clownerie, events and Cabaret.

In 2015 was also born the duo with Andrea Mineo with the Funky Magic Show.

This year the new production of Collettivo Clown sees him paired with Andrea Meroni, in the show "Baloon" for the "China tour 2019".

He is the conductor of the laboratory **"The Art of Clown"**, a research course of clownerie and comic technics.

His artistic baggage includes juggling, balloons sculpture, clown art (started in 2007 with the association of VIP clown therapy) with an original comedy tending to the "no sense". His research continues every years, following teachers and leading individual and collective directions.
